

FIRST OF ITS KIND IN NEW HAVEN

INDUSTRY'S OPEN HOUSE

... **PRODUCTION**, The source of all wealth, brings better living at home and strengthens the nation.

● John Wall was responsible for the impressive Gilbert display. Justly proud are Art Mauzaka, and Mike Ferrucci, Builders and Paul Koch, Foreman in charge of displays in Branford.

For the first time in the town's history, men and women of New Haven Industry staged an "Open House", May 20th thru May 24th.—A fulfillment of a year's planning by the Chamber's Industrial Development Committee. An exposition of this type has never before been presented in New Haven.

We are an industrial society, and stand as a leader in the field of research, diversity of products and stability of employment.

Industry is helping create a healthy and strong community of which we can be proud, through job opportunity, payrolls, and support of all worthwhile profits and agencies.

● L. to R.—John B. Mattia, Tool; Anna Bresnock, Winding; and K. M. Burrell, Personnel Director. Photo was taken prior to dinner held at New Haven Lawn Club on May 21st. The purpose of the dinner, which was given by the Chamber of Commerce, was in honor of all New Haven Industry's "Old Timers". After dining all guests attended the "Open House" at the Armory. At the Exposition, veterans were publicly recognized for loyal services rendered to their prospective companies. John B. Mattia, who has a record of 36 years and Anna Bresnock with 34 years of loyal service are two of the many Gilbert Old Timers we proudly hail.
